

## A Dilemma:

- 23.5 million persons aged 12 or older needed treatment for an illicit drug or alcohol abuse problem in 2009 (9.3 percent of persons aged 12 or older).
- Of these, only 2.6 million (11.2 percent) of those who needed treatment received it at a specialty facility.

{Substance Abuse and Mental Health Services Administration's (SAMHSA's) National Survey on Drug Use and Health, 2009.}

## A Solution:

**We have free help in the form of 12-step and other self-help programs in nearly every community! STAT Sobriety Services will show you how to get sober utilizing such free resources!**

## Your Low-cost Recovery Resource!

***"No one turned away,  
due to inability to pay!"***

**(562) 485-1905**

[www.statsobriety.com](http://www.statsobriety.com)

## History and Purpose

Our non-profit organization was founded to help people suffering from alcohol or other drug addiction, who don't have insurance or the ability to pay for treatment. Such people are typically referred to county-funded programs with very long waiting lists. The founders of STAT Sobriety Services have experienced making such "empty" referrals and the frustration of knowing that few, if any, ever get into such programs.

## Mission Statement

To aid alcoholics, addicts and their families with limited financial resources to get started in recovery by utilizing the free community self-help programs.

## Vision Statement

That every person who reaches out for help from addiction will be able to promptly get started in recovery regardless of his or her ability to pay.

## Services

- Twice weekly education seminars
- Assistance in locating free self-help resources
- Assistance in building a sober support system
- Training on how to use self-help recovery tools to avoid relapse
- Training on how to use self-help recovery tools to cope with craving and other difficulties
- Referral services
- Support for entry into formal treatment programs
- Support and assistance with signing up for health insurance

## To Treatment Centers:

If you have waiting lists, referrals to STAT Sobriety Services will result in clients being supported to get started in recovery right away by utilizing the free self-help community resources. They will also be encouraged to meet the requirements necessary to continue moving up the waiting list until they enter your formal treatment program.
